4-LINE INTERCOM SPEAKERPHONE

PHONE FEATURES

• STATIC MEMORY

All memory dial numbers and feature settings are stored in a static memory which retains its contents even with no electrical power and no battery, so they can never be accidentally lost.

• HANDS FREE SPEAKERPHONE

Allows you to talk hands free on both outside and intercom calls.

• 3-WAY CALL CONFERENCE

Allows you to have a 3-way conversation between you and callers on two outside lines.

• BACKLIT LIQUID CRYSTAL DISPLAY

Large backlit LCD for easy viewing, even in the dark. Shows number dialed, clock, calendar, station in use indication. Displays caller ID information.

• MEMORY DIAL

In addition to the shared directory dial numbers, you may store up to 5 memory dial numbers and 40 personal directory names and numbers in each 2740 phone.

• TOLL RESTRICTION

Allows you to restrict specific numbers and prevent unauthorized calls.

• CALL PRIVACY ON/OFF

Prevents others from joining or listening to your call, unless you release call privacy.

• ADDITIONAL FEATURES

Battery back-up, Dual Color Line Status Indicators, Flash, Hold, Mute, Individual Ringer Control, Redialing, Wall Mountable and Hearing Aid Compatible.

• HEADSET JACK

A dedicated 2.5mm headset jack with a dedicated headset button and a built-in headset amplifier make adding a headset easy and convenient.

• REDIAL LIST

Redial any of the 5 most recent calls, or just view the date and time they were made, along with their duration.

• DO NOT DISTURB

Prevents interruption by silencing the ringers, and preventing intercom and pages to your phone.

• AUTOMATIC LINE SELECTION

Allows you to choose which line is automatically selected when making an outside call.

• CALL TIMER

Every call is automatically timed in minutes and seconds. Great for account billing and controlling long distance usage.

• UP TO 4 LINES

Access up to four separate phone lines at the touch of a button. You can place any call on hold and switch to another line.

• ADJUSTABLE VOLUME CONTROLS

You may adjust the volume of the handset, speakerphone and headset separately.

• LINE RESERVE

Enables you to reserve a line that is currently in use. This spares you the trouble of constantly monitoring your telephone while waiting for a free line.

CENTREX FEATURES

• PRIVATE LINE COMPATIBILITY

Allows you to set up private Centrex lines at your telephone.

• DISTINCTIVE RINGING

You may assign a unique distinctive ring to your Centrex line to easily distinguish your ringing telephone from other nearby phones.

CALLER ID FEATURES

• CALLER ID CAPABILITY ON ALL 4 LINES

The 2740 phone has a caller ID capability for all 4 lines. You must subscribe separately for each line on which you want this service.

• CALLER ID ON CALL WAITING

For each line subscribed to this service, you may view the caller ID information for all incoming calls, including Call Waiting calls.

• 50 NAME AND NUMBER CALLER ID LIST

The 2740 phone automatically stores the name, number, date, and time of the 50 most recent calls.

• CALLER ID DISPLAY DIAL

Any number in the caller ID list can be dialed at the touch of a button.

• VISUAL MESSAGE WAITING INDICATOR

The 2740 lamp indicates new messages in your telephone company voice mailbox.

SYSTEM FEATURES

• EXPANDABLE UP TO 16 STATIONS

All 2740 telephones are compatible with each other and can accommodate up to 16 stations.

• TRANSFER

Answer a call and transfer it to any station in the system.

• STATION STATUS INDICATION

Allows you to see which stations are in use.

• PAGING

Make a voice announcement through the speaker of a particular station, or through all the stations at once.

• FULL-FEATURED INTERCOM

Allows you to call any other station in your 2740 system. You can also answer intercom calls "hands-free" via speakerphone.
