2757

VoIP TELEPHONE

Cortelco's high standards of quality and performance are the showcase in our new multi-line 2757 VoIP telephone. This offers businesses a cost effective alternative for their PBX type features and operation with a user friendly web based GUI interface, designed to facilitate a simple transition into the world of Voice over IP. Our 2757 comes standard with a 2.75 in. x 1.5 in. Dot Matrix Liquid Crystal Display, Speakerphone and headset jack and supports up to two (2) active lines.

At Cortelco, we understand the importance of interoperability. Our 2757 has undergone extensive interoperability testing and has been SIP Verified to Cisco Unified Call Manager™ 5.1 by tekVizion™ Labs.

To view the Press Release for the tekVizionVerification, simply go to: <http://www.cortelco.com/pdf/2757pr.pdf>

Stylish, functional and cost effective, the 2757 is ideal for Hosted VoIP, IP PBX and IP Centrex applications.
