Package Contents

Thank you for purchasing the 2757 IP Phone. Please check the package contents before you start to use the phone. If any item is missing, please contact your dealer.

1	IP Phone
2	Handset
3	Handset Cord
4	AC Adapter (Optional)
5	Network Cable
6	Desk Stand
7	Quick Start Guide

Installation Instructions

Connect the network cable to the network port (left) on the back of the 2757. You may optionally connect a computer to the network port on the right.	Install the desk stand as shown in the picture above
Connect the handset cord to the handset.	Connect the other end of the handset cord to the handset port on the base of the 2757.
If you are not using Power over Ethernet (PoE), plug the AC adapter into an electrical outlet.	Connect the power plug of the AC adapter to the phone as shown above.

You should now see some text displayed on the LCD screen.

Network Setup (PPPoE/DHCP)

If you are using PPPoE (frequently used with ADSL) or DHCP (frequently used with cable internet), please follow the steps below.

1. Press MENU key to enter setup menu. Then press UP/DOWN to select 3. Settings. Press SELECT Key.

```
